And don't worry, these tips won't strain your brain to abundant and are terribly straight forward, even if your New to the Internet promoting game.

TRAFFIC, as we have a tendency to all know it is the life blood of your businesses VERY existence on-line, so would not it's nice if you'll tap into some of that traffic, thats targeted Search Engine traffic, fully FREE Of Charge?

I bet you said YES!

Well... your in luck as a result of that's the only real purpose of a "Feeder Page".

Now, the query that I found that usually arises with "Feeder Pages" is How-To build them correctly.

This was the precise question I had myself when I was first found this sort of website Traffic Generation and is why I am putting this on ink article.

So, with that said, I hope by the point you finish reading this text you will have a sensible idea yourself of the steps necessary on How-To build quality "Feeder Pages" of your own that can send you FREE targeted search engine traffic and generate you some Google AdSense revenue as well.

Lets get started. Go to Tip #1.

Tip #1. Make your "Feeder Pages" theme based.

This is an vital tip. You want to create your "Feeder Pages" the same theme as the rest of your website. What I mean by that is, same template, same navigation, same links, copyright, etc.

By doing this it will not appear as obvious to your visitor that its a generated page of some type and can provide you a better likelihood of them clicking through to your main sale pages.

Tip #2. Place quality Keyword Wealthy content on your pages.

This is yet another vital tip you want to think about and that is putting quality Keyword Targeted content on your "Feeder Pages" that targets your audience.

Why?

Because you are building these pages for the search engines and since roughly 85% of Internet surfers use search engines as their primary tool for locating the knowledge they're looking for your going to need to have Quality Content related to your Product or Service looking forward to them to draw them in once they find your link within the search engine listings.

Tip #3. Add links back to your website or affiliate site.

This next tip is pretty straight forward. All you wish to try and do is put either a Text Ad(suggested) or some Banner Ads within the "Feeder Pages" in Highly Visible areas and link them back to your main website or Affiliate website.

This can be the entire purpose of building these pages in the first place.

Tip #4. Inserting your Google AdSense code for \$\$CASH\$\$.

Since your doing all this work to get traffic to your main website why not profit EVEN MORE by adding three

blocks of Google AdSense code to your "Feeder Pages" just in case your visitor decides not to click through to your web site or affiliate site.

And since your "Feeder Pages" have quality Keyword Targeted content on them, your Google AdSense Ads can show targeted ads.

The simplest places to put your three blocks of Google AdSense code is true at the prime beneath your Header graphic if you've got one. The following best place is in the upper left sidebar. And the last place is either among the content itself or at the end of the article.

These positions all rely on how you build your "Feeder Pages", thus create certain you plan out where you want to put your Google AdSense code ahead for Maximum PROFIT!

Tip #5. Add an RSS feed to your "Feeder Pages".

Okay. Here's the last tip I'm visiting share and that's, add an RSS(Real Straightforward Syndication) feed to your "Feeder Pages".

By doing this you'll be putting your "Feeder Pages" on Autopilot, 24/7.

Why an RSS feed?

Simple. RSS feeds deliver and syndicate contemporary content, so if you have got an RSS prey on your "Feeder Pages" your content will be updated 'Automatically' that can then trigger the search engine spiders to schedule routine visits back to your website for additional indexing.

Well... there you have got it in a nutshell folks.

If you follow what I've got outlined above you'll be on your means to FREE targeted search engine traffic and Google AdSense \$\$PROFITS\$\$.

These are just some quality tips I wanted to share with you from my own experience to assist you Maximize your efforts if you opt to use this sort of Traffic Generation, and to additionally help remove the Trial and Error process.
