Investinpixels.com - Purchase Advertising Space And Earn Money!

22 December 2009 --

Firstly, <http://www.investinpixels.com> has been a 3 month long project. There has been a dedicated web development team, as well as a dedicated advertising/marketing agent to bring in THOUSANDS of viewers daily. We're putting in every effort to make this a success, and we'd be honoured if you could help us. We all have a desire to succeed and we're all putting our hearts into this project!

Purchase advertising space and make money with <http://www.investinpixels.com>. If you're tired of wasting money on dull, useless and pointless advertising you should look no further! Here at <http://www.investinpixels.com> we offer you a different perspective to purchasing advertising space, and we give you the opportunity to make money whilst you do it! We have several helpful and extremely useful features which allow you, the user, to have an enjoyable, pleasant and easy experience. Such features include re-selling pixels, rating adverts and controlling your adverts via your own account!

Firstly, <http://www.investinpixels.com> gives you the advantage of re-selling the pixels you have bought to other users. This means that you control your own prices using your account tools, thus enabling you to make a profit. Essentially, you won't be losing anything if you sell your pixels for the same price as you bought them at. Additionally, you may also make a large profit! This is where the 'invest' part comes in - if demand is high, prices will also be high! [Www.investinpixels.com](http://www.investinpixels.com) also enables adverts to reach a special prestigious position called, 'promoted adverts'. The top 5 adverts with the highest ratings will be placed here, which gives each advert a total of 5 hours exposure over 108,000 pixels per day! These ratings will be reset every week so new adverts also have the chance to reach this spot!

Secondly, rating adverts is a fabulous feature which has been added. This gives users the ability to rate adverts which they have dealt with depending on their customer satisfaction. Users must sign up to rate adverts however, which helps stop fake or bogus ratings.

Thirdly and finally our last unique selling point is our comment system. Along with rating adverts, users may comment adverts to go into the finer points of the company they have dealt with. Users do not need to register, however, this section is moderated.

So if you're looking for hassle free, simple and effective advertising sign up with us today!
