This article is going to help you understand what some of these methods are, and how to make them work for you. With a little time and effort, you will see your business start to grow.

DOORWAY PAGES

This is a web page that you use to lead people into the target interactive site. Once there, you are trying to get the viewer to take an action such as purchasing from your affiliate sites or buying into your program. This page is used to increase your search engine placement as well as helping you target different audiences. Examples for doorway pages are blogs, any socialsites, forums,minisites about various topics.

BANNER ADS

Create effective banner ads to help get traffic to your site. You will need to find places to put these ads once you have them prepared; one good way is to agree to swap space on pages for other website's placement on your. You can find a banner exchange program to help you locate potential swaps, or you can do it independently. You will also want to get your banner ad on a high traffic site. Place them on several online classified pages. Make sure that you keep your ad at the top of the queue by paying attention daily. You can do this free, and there are paid sites.

WRITING ARTICLES

One of the most effective methods to brand yourself and advertise your products, programs or service is article writing. Submitting original articles to article directories not only provides you with a lot of backlinks to your main site it also helps to brand your business with interesting information on different topics. Writing articles is not only for professional writers.

CLASSIFIED ADS

Classified ad sites are easy to find on the internet. Here you can advertise your product or service in many different categories, countries and local communities. Look out for the free classifieds and make a note on how long your ad will be online before you have to renew it. Some sites take it down after 7 days, others after 1-2 months. Make the ad copy very appealing so that people would want to click on it. You can always splittest a few ads and see which headline is converting better hence getting more clicks.

CONTRIBUTE TO FORUMS

Every niche on the internet has at least a few forums or groups on yahoo, squidoo or others. Join a few forums to post original content, answer questions or ask a few. In your signature you can advertise your website and the

better your contribution in the forum the more people will be interested to know what it is you are working with and they will click on your link. You can make new friends, find business partners, brand your name and business and you?ll maybe getting a few new members into your program.
